

2023-2024 Strategic Plan

The CDBC is ensuring safe, competent and ethical provision of dietetic services to British Columbians by establishing, monitoring and enforcing standards, and regulating Dietitians, in accordance with legislation.

Goal 1: Carrying out amalgamation while sustaining our operations and meeting our mandate.

Outcomes

Core College functions are carried out without disruption during the transition.

The new entity is adequately resourced to regulate dietitians.

Staff remains motivated and feels supported throughout the process.

Goal 2: Continuing to embed cultural safety and humility within all aspects of professional regulation.

Outcomes

Indigenous health and safety is clearly articulated within the College priorities and documents.

Relationships with Indigenous communities and leaders are inclusive and collaborative.

Registrants are competent and actively supporting cultural safety and humility in their practice.

Goal 3: Supporting equity, diversity and inclusion practices within the College's mandate and roles

Outcomes

Registrants are competent to practice with diverse communities in an inclusive manner.

Registrants have access to relevant and adequate resources to support their practice.

CDBC's actions illustrate leadership and commitment towards EDI in a sustainable manner.

Key Progress Indicators

Goal 1: Carry out amalgamation while sustaining operations and fulfilling its mandate.

- Timeline, resources and milestones for amalgamation are determined
- College leadership is involved, included, and consulted in each step
- College data for registration, QA and complaints show compliance with legislation and good regulation performance indicators
- Registrants and the public still view the College as a reliable and trustworthy organization

Goal 2: Embed cultural safety and humility within all aspects of professional regulation.

- Increased Indigenous representation within the organization
- Board, committees and staff receive and attend training
- College processes and documents are reviewed on an ongoing basis to articulate clearly cultural safety and humility
- Profession-specific resources are available to registrants to support culturally safe dietetic care

Goal 3: Support equitable, diverse and inclusive practices within the College's mandate and roles.

- Diversity within the Boards and Committees is measured and progress is documented
- Board, committees and staff receive and attend training
- College processes and documents are reviewed on an ongoing basis to be more inclusive
